## SHAREHOLDERS & CLIENTS,

As the world and American Business Bank settle into our new normal, we must recognize the many positives that have risen above the current challenges causing us to find meaningful ways to serve those who count on us. Such is the advantage of our close one-to-one relationships with our employees, customers, and shareholders, facilitated by our nimble, entrepreneurial business model.

Despite the fact that in the months since the COVID-19 crisis began, the U.S. economy has become increasingly strained resulting in a situation potentially more complicated than the Great Recession, the American spirit continues to prevail. Likewise, our team of employees, the majority of whom are safe at home, eagerly await opportunities to attend to our continuously growing and fiercely loyal customer base.

Against this unprecedented backdrop, ABB achieved record operating performance in the second quarter, with total assets up \$893 million, or 37% from year-end December 31, 2019, largely due to the PPP originations made to support our customers during the recent quarter. The Bank reported record second quarter and year-to-date net income of \$6.7 million and \$11.6 million, respectively. The Bank remains well capitalized by regulatory standards, and our levels of liquidity continue to be substantial.

While we cannot predict exactly how the rest of the year will unfold, with the entrepreneurial spirit that drives us, we are taking the actions we need to take to control what we can. With the business model and customer philosophy that has served us well for 22 years, we are executing our plans and managing our business with the sole pursuit of forming solid relationships with our customers that will stand the test of time, even and especially during pandemics! We are honored to offer you educated, time tested advice with the belief that this steadfastness will see us all through, day-by-day, one month at a time.

Wishing you good health and prosperity,

- **Leon Blankstein**
